# Exploring Educational Opportunity in St. Helena Parish

---

A report created by the Educational Opportunity Project  
at Stanford University

GENERATED ON 07/31/19

FOR MORE INFORMATION, PLEASE VISIT [EDOPPORTUNITY.ORG](http://EDOPPORTUNITY.ORG)

## About the Data

The Educational Opportunity Project has derived these data and visualizations from the Stanford Education Data Archive (SEDA), which is the first national database of academic performance in the U.S.

The SEDA data are based on the standardized accountability tests in math and English Language Arts (ELA) administered annually by each state to all public school students in grades 3-8 in each school year from 2008-09 through 2015-16. In these years, third- through eighth-graders in U.S. public schools took roughly 350 million standardized math and ELA tests.

The Educational Opportunity Project harnesses these and other data to help scholars, policymakers, educators, and parents learn how to improve educational opportunity for all children.
